

Information	
Start point	Lynford Stag picnic site • Grid Reference TL814916
Parking	Free car parking
Distance	1.5 or 1.9 miles
Details	Flat, 100% soft surface  

Walk 11 instructions

(Green posts, 1.5 miles)

1. From the car park, proceed to the marker post with blue and green bands, bearing left to follow the posts across the open grassy area towards the toilet block.
2. Follow the green posts to your right. The route generally bears left before it joins up with the blue route. You will see a second marker post with blue and green bands. Keep walking straight on.
3. Follow the posts. You will follow a wide grassy track with the A134 to your right. Walk around the gate and head back across the grassy area to the car park.

Did you know?

- The walks here lead you through mixed young and mature plantations of conifer.
- The Forestry Commission manages its woodlands for a variety of objectives, including biodiversity.

Walk 12 instructions

(Blue posts, 1.9 miles)

1. From the car park, proceed to the marker post with blue and green bands, bearing left to follow the posts across the open grassy area towards the toilet block.
2. Follow the blue posts straight on.
3. At the end of the track you come to a second post with both blue and green bands. Turn left to join a section of the blue/green walk. When you come to the next blue/green post, there is a fork in the path. Bear right here following the blue marker posts.
4. The blue route then rejoins the green route. Continue straight on. The path bends to the right.
5. Follow a wide grassy track with the A134 on your right. Walk around the gate and head back across the grassy area to the car park.

Two very pleasant, easy, flat forest walks following the green or blue way marked grassy trails. Alternatively, combine both trails for a longer walk.

Look out for...

1 The metal imitation Stag

- Butterflies such as large white, small white and green-veined white found between April and September in woodland and grassland
- Deer
- Rabbits

Lynford Stag ►

The area was named after a metal imitation target stag found by Forestry Commission workers when the area was being planted. It belonged to the former owner of Lynford Hall, Sir Richard Sutton, Master of the Hunt.
